Size: Width: 55 cm x Depth: 56 cm x Height: 192 cm

POS001 – Point of Sale Blue and POS002 – Point of Sale Red

Product Notes

Marketing

Morphun is the brand name of Thinkplay Ltd whose products are registered and patented in countries across the globe. Morphun Retail sets are designed to sell “off the shelf” with the key support of a local hands-on marketing and product awareness program. This is typically supported by posters, sample packs and by providing an opportunity for children who enter the shop to see and play with the bricks. On-line and catalogue sales are supported by an extensive library of images available to distributors from our secure Cloud Server – ask for details.

Instruction Sets

Each set is supplied with the featured set of mostly language free instructions, packed inside the tub or box. To add yet more flexibility to the product it is possible to add extra instruction sets to each pack – suitable for the bricks in the pack – from our huge range of designs. Some additional instructions are also available for download by your customers, from our website link here: www.morphun.com/products_junior.php

Packaging

The sturdy packs used are designed to meet retail standards of durability, cost and product presentation. Within volume constraints and in some markets, it is possible to develop and use locally sourced packs. Morphun then supply the set packed in heat sealed plastic bags for local packing. This also helps to reduce both shipping and tariff costs.

Mail Order Packs

Each line can be packed in individual carton packs for mail order at modest additional cost.

Labelling

Labels give colourful and prominent display of the brand, product and contents. Labels for plastic tubs can be developed to meet the needs and legislative requirements of each market.

Private Label

Morphun offer a full private label service – enquire for details. We are happy to put your brand on the packs with ours for agreed minimum volume orders.

Product Development

The Morphun product development & design team are constantly engaged in the development of new products, to meet the need for fresh and interesting concepts on a regular basis.

Manufacturing & Distribution

Our manufacturing and distribution is based in the EU zone. This ensures a normal lead time to despatch of 3 to 4 weeks, depending on the season.

Product Safety & Certification

Morphun takes very seriously all issues surrounding product safety. Certificates are available for all our products on request, including: EN71, ASTM and CPSIA for phthalates and lead. Junior Starter is suitable for children aged 3+ whilst being entirely safe for children under 36 months if they find the set. Junior sets are suitable for ages 4+. Advanced sets are suitable for ages 5+.
